LEGACY MOUNTING EQUIPMENT

This base was used on old Sport-Trolls & Mini-Mags. The down rigger slid in from the side & the knob would then be tightened into place.

This base is obsolete; HOWEVER, the Tab Lock Base #2207001 is a replacement.

ACCESSORIES

MOUNTS, BASES AND LINE RELEASES

RIGGING THE SYSTEM IN YOUR FAVOR

Several different types of releases are used with downriggers to release when a fish hits, to add fixed and stacking extra lures on the fishing line, to drop or add inline removable weights, and release tension from planer boards.

UNI-LINE RELEASE

Two adjustment points allow tension settings from 2 to 22 pounds, for slow trolling with live baits or going after light-hitting walleyes. One-hand tension release for use on any test line in saltwater or freshwater.

Part No. 2250009

UNI-STACKER RELEASE

Just like the Uni-Line Release, with an extra stacker clip to allow fishing at multiple depths off a single weight.

Part No. 2250105

QUICK RELEASE™

Quick and easy to use with no twisting, winding, or looping to damage your line, even in a bouncing boat. Adjustable tension lets you match your line weight and fishing style.

Part No. 2250119

QUICK STACKER™

Attaches directly to your downrigger cable for stacking applications. Quick and easy to use with no twisting, winding, or looping to damage your line. Adjustable tension lets you match your line weight and fishing style.

Part No. 2250120-1

MOUNTS, BASES AND LINE RELEASES

RIGGING THE SYSTEM IN YOUR FAVOR

Several different types of releases are used with downriggers to release when a fish hits, to add fixed and stacking extra lures on the fishing line, to drop or add inline removable weights, and release tension from planer boards.

OFFSHORE LINE RELEASE

Quick and easy to set even on turbulent waters, it won't damage your line by twisting, winding, or looping. Spring-loaded "clothespin" design allows for all types of fishing.

Part No. 2250106

OFFSHORE STACKER

Adds the ability to fish at multiple depths off a single weight with the popular Offshore Line Release.

Part No. 2250107

OFFSHORE SALTWATER LINE RELEASE

Corrosion-resistant, high-tension spring is designed for heavier saltwater lines. Troll at high speeds in deep water with its heavy-duty release. Anti-fouling pins prevent line from snagging behind the gripper pads.

Part No. 2250109

PINCH-R-RELEASE

Spring-action clip opens quickly and easily with finger pressure. The deeper the line is set back in the pads, the greater the tension. Tension settings range from 2 to 12 pounds.

Part No. 2250111
