Other Related Accessories:

Rod Holder Rail Mount:

For Dual Axis or Single Axis Rod Holders. Remove rod holder from its original base and install on this accessory. Fits either round or square rails.

Item number: 1904015 fits rails 3/4" to 1-1/4"

Deck Mount Plate:

Allows Dual Axis rod holders and Downrigger Pedastals to be mounted in locations that do not have access to the underside. Includes the black trim (which also eliminates sharp edges) and screws to fasten the plate to the deck or other material it is being attached to.

Item Number: 1904000

The holes at the corners are 1/4" holes that are tapped (1/4" x 20) spaced 3" x 2". The plate is 4" x 3". The countersunk holes are 3" and 2" apart.
